Objective

Computer Science student looking for an opportunity to explore the CS industry. In addition, I'd like to improve my understanding of the field in a way that would enable me to work on innovative new technologies such as VR.

Education

BACHELOR OF SCIENCE DEGREE | EXPECTED MAY 2020 | UNIVERSITY OF KENTUCKY

- Major: Computer Science
- Related coursework: Application of search algorithms to solve mazes, implementation of a server-client system in C, and utilization of Octave to work with numerical solutions.

HIGH SCHOOL DIPLOMA | MAY 2016 | BOONE COUNTY HIGH SCHOOL, FLORENCE, KY.

- Related coursework: Introduction to object-oriented programming and Java.

Skills & Abilities

C++ PROFICIENCY

- 3 years of C++ experience through university assignments and personal exercises.

JAVA PROFICIENCY

- 2 years of Java experience through university assignments.

BASICS OF DATABASE

- For school work, I utilized MySQL to create and edit a database for eSports teams and events.

ADDITIONAL PROGRAMMING LANGUAGES

- Throughout my education, I have also worked with C, Octave, and MATLAB to lesser extents.

Work Experience

PACKAGE HANDLER | FEDEX GROUND | MAY-AUGUST 2017 & 2018

- I worked with a team of package handlers to meet unload deadlines in order to send packages on time.
